

Atlantic Packaging

Toronto, Ontario, Canada

Description

Working directly with the Owner's engineers, Trumbley & Hampton managed the design and construction of the \$33 million structure for this paper production plant in Toronto, Ontario. The facility receives and processes waste cardboard boxes to produce heavy rolled cardboard stock. The project included a 100 foot wide by 500 foot long, 80 foot high Press Room with three 50 tonne cranes running the full length. To support the press operation, the other buildings included a two storey reinforced concrete Wet Pulp Building, raw material and finished product warehousing, and water treatment facilities for the production discharge. The completed facility comprises 325,000 square feet.

End Use

Paper Production Plant

Building Size

325,000 sf

Special Features

- 50 tonne cranes spanning 100'
- 80' clear height
- caisson foundations
- reinforced concrete structure
