

Hamilton Fire Station #23

Hamilton, Ontario, Canada

Description

This existing 30 year old building required extensive renovations to meet the current requirements for Fire Emergency Services and Emergency Medical Services. Trumbley & Hampton undertook the project and began with complete demolition of the interior including asbestos removal leaving only the exterior walls, steel framing, fire separations and roof deck.

New Installations included: insulation and roofing, 2 storey living quarters, bunker gear room, overhead doors, washrooms (both floors), apparatus room, high efficient windows, locker rooms, kitchens and lunchrooms, interior partitions, showers, communication centre, soundproofing, floor covering, meeting rooms, plumbing and fixtures, wall finishes, HVAC systems and distribution.

Trumbley & Hampton completed the \$1.5 project two months ahead of schedule.

End Use

Fire Hall

Building Size

10,000 sf
