

City of Hamilton Renovations to 3 Transfer Stations

This project requires extensive renovations to three aging Transfer Stations within the City of Hamilton. The Work includes:

- demolition and replacement of concrete slab tipping floors
- repair and replacement of precast concrete wall panels
- interior renovations and upgrades to staff areas
- new water and sanitary plumbing
- new plumbing fixtures
- replacement of the heating systems and ducting
- new heat recovery and ventilation systems

Each facility can only be closed for a three week period at which time the concrete tipping floor will be demolished and replaced. The facility must remain open to the public and be fully operational at all other times during the Renovations.
