

Mattamy Homes

Milton, Ontario, Canada

Description

Trumbley & Hampton designed and built a 76,000 square foot house-assembly factory for Stelumar Advanced Mfg. Inc., a division of Mattamy Homes, on their residential neighbourhood development site in Milton, Ontario. The facility was designed for the requirement of relocation after 4 years of production. To meet these requirements, Trumbley & Hampton designed with the Butler Buildings Canada system.

The factory is comprised of the crane assembly building, 100' clearspan width x 200' long x 60' high with two 10-tonne cranes, joined to the final assembly building, 120' wide clearspan x 470' long x 43' high with a 60' wide x 40' high hangar door. The complete pre-punching of all primary and secondary structural made Butler Buildings the only systems building that allows reuse of all of the buildings components, including the cladding.

End Use

Manufacture Houses

Building Size

76,000 sf
